COST-EFFECTIVE TECHNOLOGY LEADERSHIP FOR YOUR FIRM.

WHAT IS A LAW FIRM vCIO?

A full-time law firm CIO advises senior management (CEO, CFO, and COO) on strategic technology plans, design, and budgeting. For some law firms, the cost of doing so must be financially justified. To meet these needs, law firms hire part-time or outsource CIOs.

An unbiased vCIO (Virtual Chief Information Officer) ties firm goals and IT capabilities into implementation-ready strategies at a fraction of the cost.

vCIOs FOCUS ON THESE 5 THINGS

Implementing a successful strategic technology plan requires a foundation in these areas. To keep your law firm secure, this plan covers all the "what if" scenarios. IVIONICS vCIO solutions can get you there.
A TRUSTED vCIO

Strategic technology planning can be complex and challenging; only some have the skills to do it effectively. Many law firms struggle with the same challenges, and IVIONICS knows the appropriate technologies to address them. These critical skills differentiate us from other technology companies. IVIONICS vCIOs provides:

- ☑ **Leadership**
- ☑ **Law firm experience**
- ☑ **Saving time & money on:**
  - **Hiring the right CIO for your law firm**
  - **Finding the right technology that would work for your law firm**
  - **Identifying a well-defined technology strategy & budget for your law firm**
  - **Utilizing an efficient as-needed service model**

Evaluating Technology · Cost/Benefit Analysis · Security · Risk · Bottom-Line Impact
